

Pawan Prajapati

AI-Augmented Experience Design Lead / Consultant

+971 54 320 0532 · Dubai, UAE · pawankpdx@gmail.com · [LinkedIn](#) · [Portfolio](#)

Summary

Experience designer with 15+ years in UX, product and visual design. Specialist in simplifying complex, data-rich B2B enterprise platforms for global clients in aviation, healthcare, logistics and banking. Known for turning complex requirements into clear UX solutions, modernising legacy systems, building scalable design systems and applying AI-augmented design workflows to deliver faster with quality.

Experience

Tata Consultancy Services (TCS Interactive) / UX Lead / Consultant

DEC 2012 – PRESENT, BENGALURU / PUNE

Leading international airline, GCC

UX Consultant / Designer · Aviation · B2B

- Reimagined a mission-critical legacy baggage management system, turning fragmented, screen-heavy processes into streamlined end-to-end operational workflows.
- Simplified high-volume, time-critical baggage scenarios into clear task flows that reduce cognitive load for operational staff.
- Translated intricate business rules and technical constraints into intuitive interaction patterns, in close partnership with product owners, architects and engineering.
- Established a scalable design system: foundations, tokens, components, patterns and accessibility standards for consistency across every module.
- Defined design-system governance and documentation, giving designers and developers a single source of truth.
- Explored AI-generated concepts for operational dashboards, interfaces and process-execution flows, accelerating ideation and stakeholder alignment.

Leading Australian digital health provider

Lead UX Designer · Healthcare · B2B

- Shaped UX for a new Electronic Medical Record (EMR) platform, from discovery to delivery.
- Conducted user research and created personas and journey maps of clinical workflows.
- Turned requirements into information architecture, user flows, wireframes and final screens.
- Designed accurate, accessible screens and validated them through prototype testing.
- Presented design rationale to stakeholders and worked closely with Agile delivery teams.

Australia's national postal and logistics operator

UX Lead · Logistics · B2B

- Drove the UX revamp of a legacy event management platform, from booking to delivery.
- Mapped the consignment lifecycle and operational pain points with operations users.
- Redesigned information architecture and tracking, status and exception-handling flows.
- Set design standards, reviewed design work and supported engineering through delivery.

Global Swiss banking group

Lead UX Designer · Financial services · B2B

- Designed a risk analysis platform used by multiple specialist personas.
- Defined role-based dashboards tailored to each persona's data and decisions.
- Designed dashboard personalisation: add, arrange, filter and save widgets and views.
- Turned complex risk data into clear visualisations and drill-downs, validated with users.

Practice & team

UX Lead / Consultant · TCS Interactive

- Shape UX reimagination pitches and client presentations that articulate an experience vision.
- Contribute UX strategy, scope and effort estimates to RFP and proposal responses for global clients.
- Mentor and coach designers on craft, problem framing and career growth; support hiring and reviews.
- Facilitate design thinking workshops with business, product and technology teams.

Nomad's Advertising Agency / Senior Visualizer

MAY 2010 – JUN 2012, PUNE

- Translated client briefs, from rough notes to verbal ideas, into clear website concepts and visual narratives.
- Created sitemaps, wireframes and web page designs for brand sites, landing pages and campaigns.
- Worked closely with developers and clients to refine designs and deliver consistent brand experiences across print and digital campaigns.

Skills & Tools

UX: User experience design · Design systems · User research · Information architecture · Wireframing & prototyping · Interaction design · Dashboards & data visualisation · Data analysis · Journey maps · Empathy mapping · Usability testing · Accessibility · Inclusive design

Ways of Working: Cross-functional Agile / Scrum teams · User stories · Design storytelling · Stakeholder management

AI Tools: Claude (Projects, skills) · Figma MCP · Blender MCP · Figma Make · Gemini (Veo 3, Flow, Nano Banana 2, NotebookLM, Vids) · ChatGPT · Copilot · Gamma · Agentic workflows · Prompt design

Design Tools: Figma (expert: variables, libraries, prototyping) · Adobe Suite

Education, Certifications & Volunteering

Education

- Bachelor of Fine Arts (Digital Arts) — Vishwakarma College of Arts, Commerce and Science, affiliated to Tilak Maharashtra Vidyapeeth University, Pune (2007 – 2011)

Certifications & Volunteering

- Leading and Managing Successful UX Teams — Project Management Institute (PMI)
- Human Computer Interaction — Interaction Design Foundation (IxDF)
- AI for Project Managers — Techademy Global
- Design Thinking for Growth and Transformation Consultants — TMTC
- Volunteer: Design Mentor on ADPList · Pre-screening Evaluator, Smart India Hackathon 2024
